SPECIAL FOCUS:

Kitchen & Bath Design

Kitchens and baths may be classic or contemporary, neutral or eye-popping. As these spaces show, beauty comes in many forms.

TEXT BY PAULA M. BODAH

Details, Details

What's so special about a white kitchen? In the case of this space in a new home in Newton, Massachusetts, it's all about the details. A Lindsey Adelman Studio light shines down on the custom-made Lucite chairs at the island. Polished and brushed stainless steel join forces on the range hood, a detail echoed in the stainless trim of the island's legs. A simple valance of Kelly Wearstler's Trellis fabric hangs at the windows. And designer Jill Litner Kaplan added a dose of extra glamour with panels of antique mirrored glass set into the upper cabinets. She boosted the glam factor by setting slivers of mirrored glass among the simple white subway tile of the cooktop's backsplash. The result is a space that's clean, serene—and hardly your basic white kitchen.
